Overview

Al-Abyadh is an indigenous service provider to the oil and gas industry in Iraq. It was incorporated as a limited liability company in Iraq in 2017 to carry on the business of Engineering (EPC), Civil Construction, Pipeline Services, Procurement, Marine Logistics, It is also involved in the business of Marketing, Supply and Trading of Crude Oil and Petroleum Products (Offshore/Onshore). The Company is led by a dynamic management team; Al-Abyadh has been strategically positioned to achieve a sustainable competitive Advantage to achieve its vision. This is further enabled by the proper deployment of good corporate governance and risk management practices.

“Al-Abyadh has been strategically positioned to achieve a sustainable competitive advantage to achieve its vision..”

History

Al-Abyadh Company, established in 2017, specializes in constructing and rehabilitating oil and gas facilities. Our expertise includes EPCC projects involving trunk pipelines, stations, treatment plants, tank farms, and power infrastructure. We collaborate with international design organizations and maintain rigorous quality control certified by Bureau Veritas. Our compliance with ISO standards ensures adherence to global norms. We prioritize innovation, using advanced technology and materials from renowned global producers.

Our services encompass design, engineering, project management, procurement, logistics, construction, and commissioning. Trust Al-Abyadh for quality, efficiency, and cutting-edge solutions in the oil and gas industry.

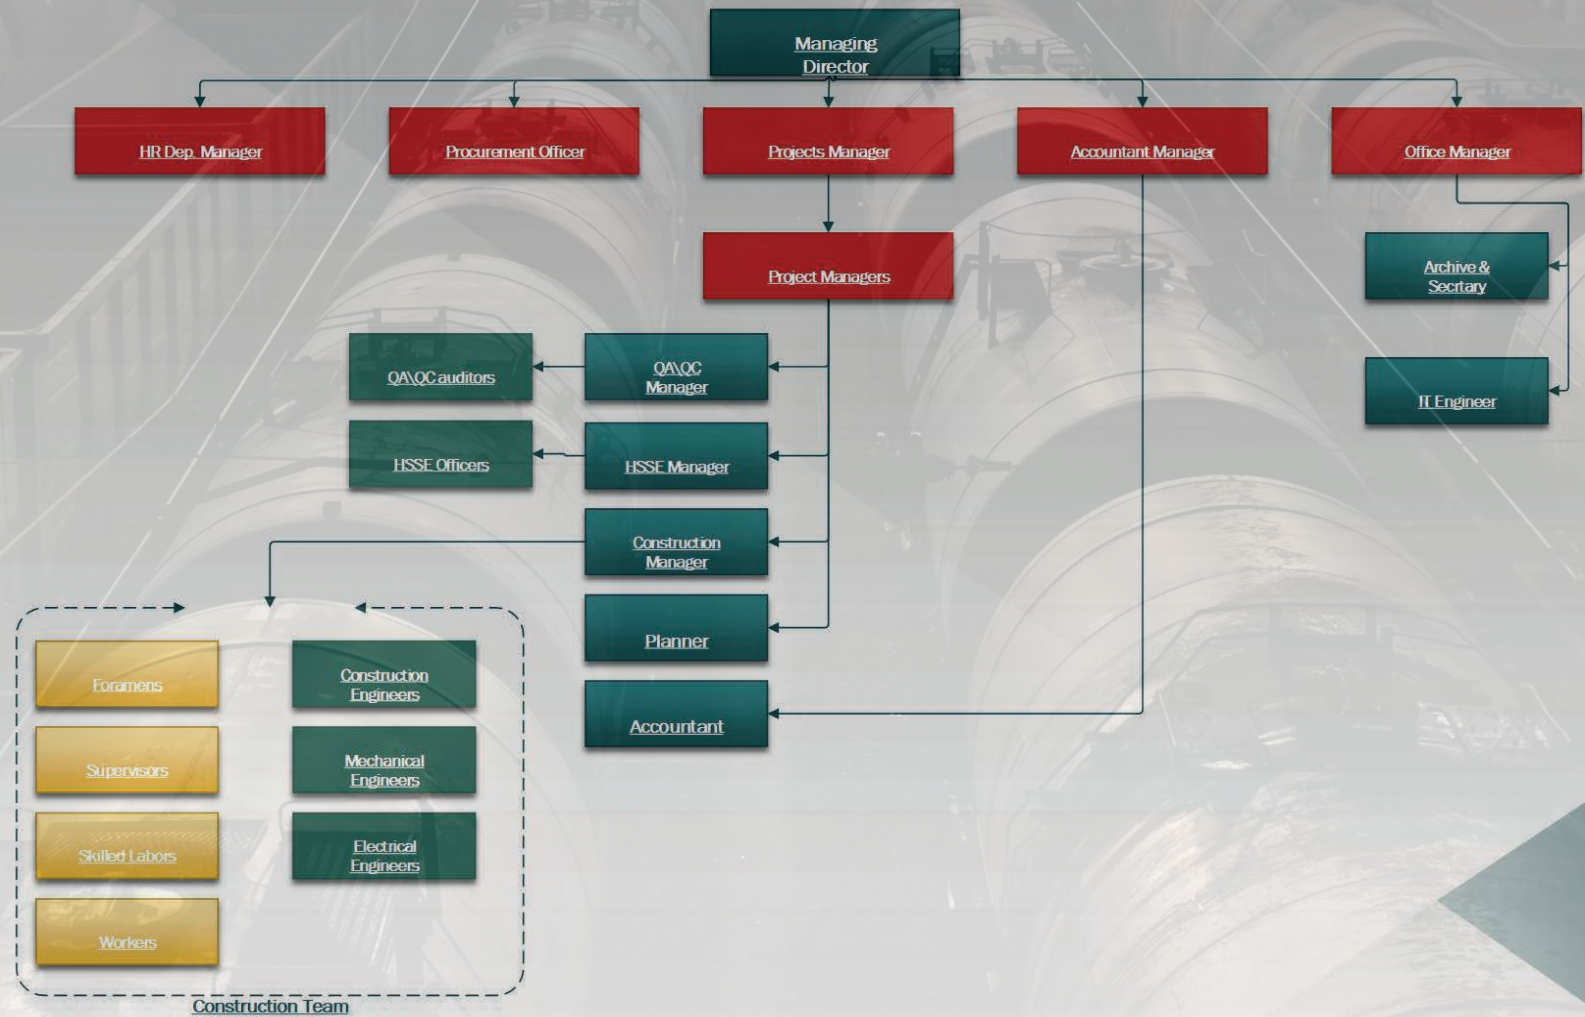

Management Statement

Al-Abyadh management commits its best efforts to achieve the following targets:

- *To conduct our business aiming for the highest ethical standards possible*
 - *To ensure the well being of the surrounding community*
 - *To ensure a work climate that embraces diversity*
 - *To offer our personnel the continued career development and self-enhancement*
 - *To provide a safe, healthy and enabling work environment*
- To provide our customers with the benefits of a safe and environmentally friendly atmosphere*

ORGANIZATION CHART

Projects Profile

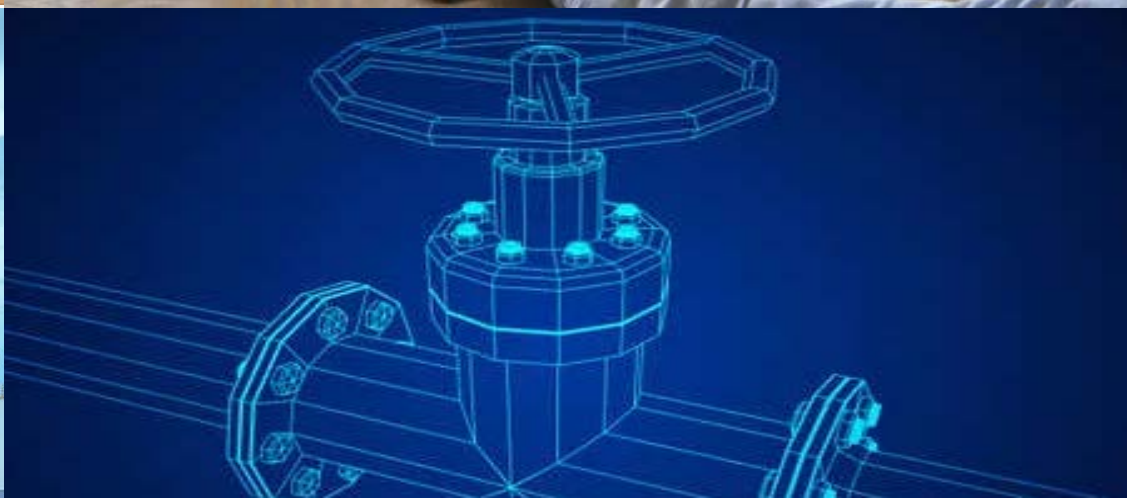

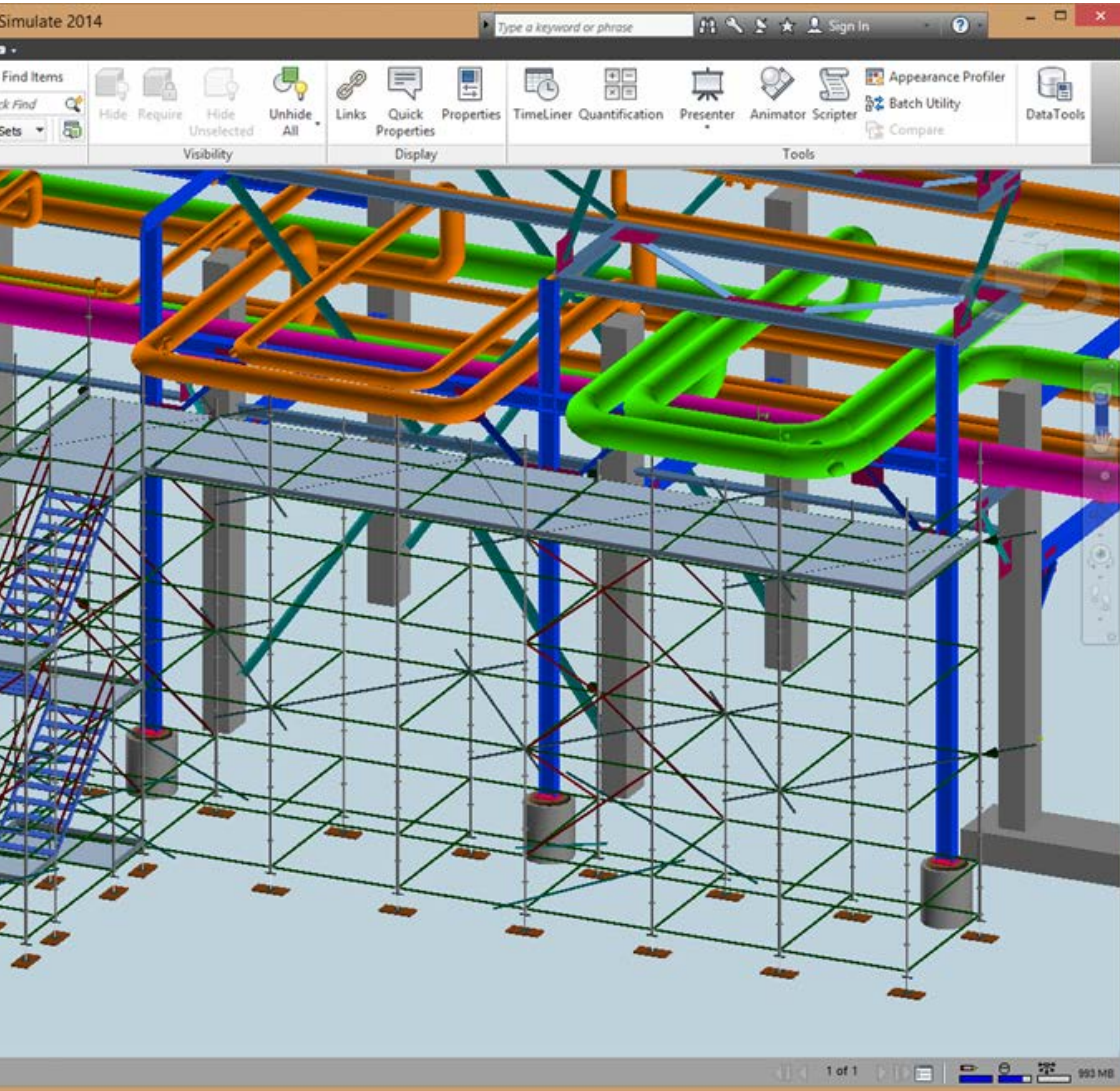

Engineering

Al-Abyadh designs, engineers and constructs energy infrastructure projects providing a full spectrum of EPC solutions. Relying on more than thirty years of experience Al-Abyadh safely and reliably executes its projects all around the Middle East, North & East Africa regions. From our beginnings as a manufacturer and erector of steel structures and storage tanks, we have grown to our current ability to offer EPC services for a wide range of projects related in the Oil & Gas sector.

Being the basis of the development of the project and proper selection of equipment and material, Al-Abyadh engineering department lies at the heart of every project to ensure the quality of the project outcome and the safety of the solutions offered.

OUR FOCUS IS ON:

- *Design, Engineering, Procurement and Construction of Storage Tanks and Vessels*
- *Design, Engineering, Procurement and Construction of process plant piping systems and pipelines, including philosophy of plant and stress analysis*
- *Storage Tanks repair and maintenance*
- *Sphere construction and repair*
- *Supply and erection of welded heavy steel structures*
- *Associated pipe work and process plant installation*
- *EPC handling of Bulk Plants and Processing Plants*

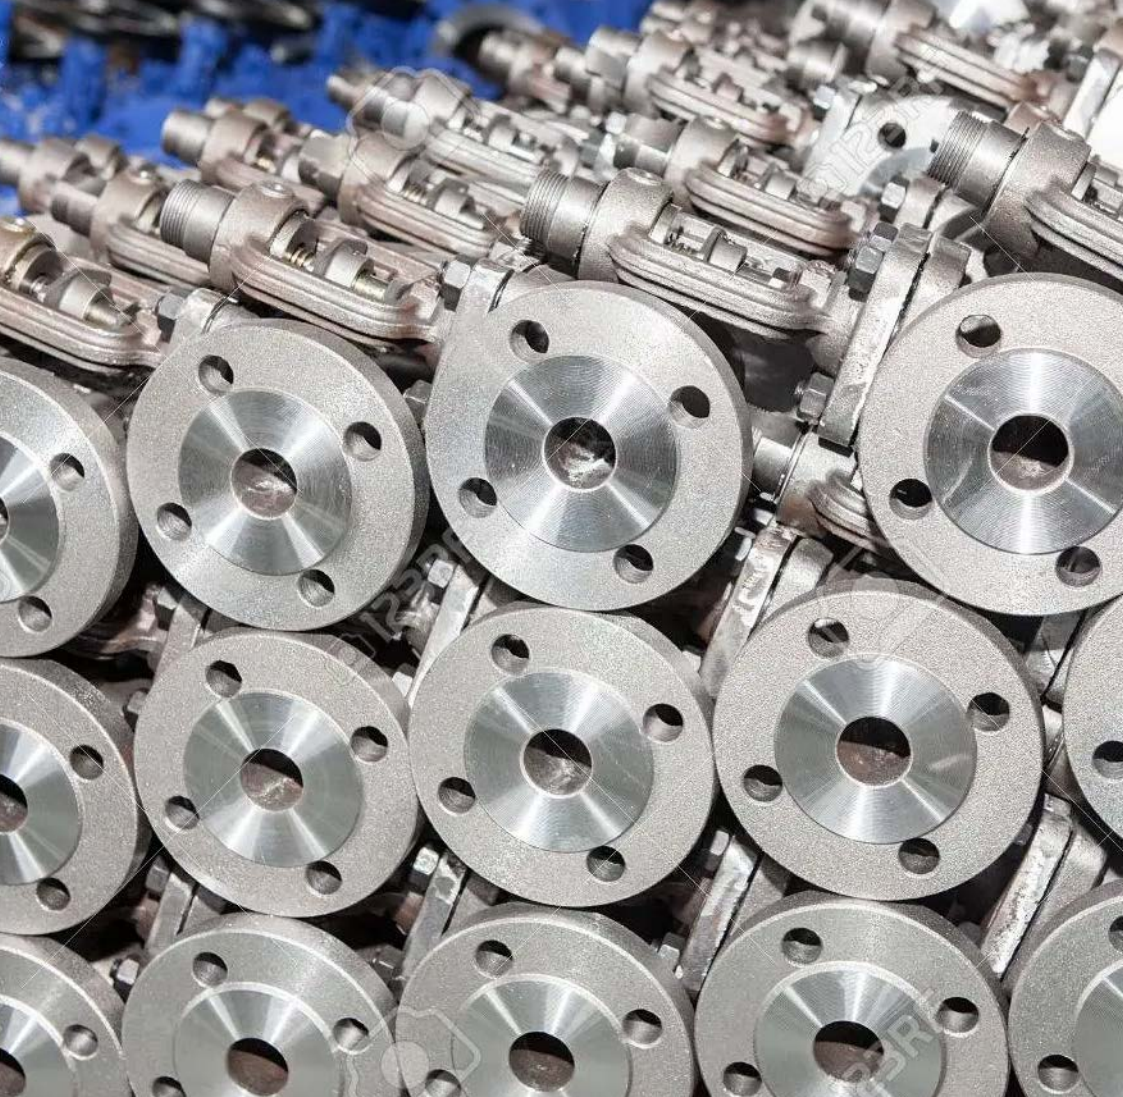

Projects Profile

Procurement

Al-Abyadh allocates the required professional personnel to carry out any procurement activity in accordance with project / client requirements. These activities are carried out by a Procurement Manager responsible for coordinating all related activities having direct responsibility for the department's Project performance.

Projects Profile

Construction

Pipelines Construction

Realization of Onshore Transmission & Distribution systems in the Oil&Gas sector including Project Management, Design, Procurement and Construction aspects.

The main Transmission & Distribution system typology:

- *Gas and Oil Pipeline*
- *Gathering Systems*
- *Pumping Compressor, Measurement and Reduction Stations*

Projects Profile

Construction

Onshore Plant

The onshore plant division is in charge for Project Management and Construction services in the Oil&Gas sector.

The inter-disciplinary management of complex Projects in international field represents a good trade-off between quality and innovation.

The onshore plant typology:

- Chemical and Refineries
- Gas Treatment
- Maintenance

Projects Profile

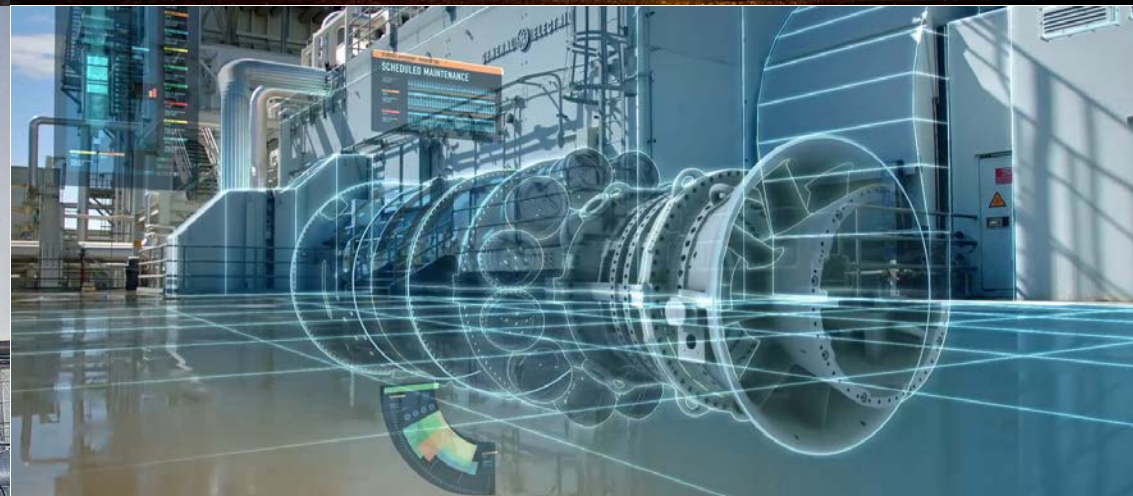

Construction

Electrical and Power

The onshore Electrical and power sector is in charge for Project Management and Construction services in the power sector. The inter-disciplinary management of complex Projects in international field represents a good trade-off between quality and innovation.

The onshore power sector typology:

- Diesel power units construction.
- Mobile and fixed Sub-stations.
- OHTL erection and construction.
- Operation and Maintenance.

Projects Profile

Al-Abyadh since it cofounded had accomplished many major projects in energy sector (Both Oil & Gas and Electriscity sector)

- Provision of Pipelines Construction Works for GPP Project.
 - **Contract type:** Construction & Commesioneing
 - **Contract Amount:** 5,600,772.00 USD
- Well Pads Construction in Buzurgan Oil Field
 - **Contract type:** Construction & Commesioneing
 - **Contract Amount:** 4,262,400.00 USD
- Electrical Connection EPCC Service
 - **Contract type:** Construction & Commesioneing
 - **Contract Amount:** 1,315,000.00 USD
- Construction of Water Injection Tanks in Water Injection Station in Buzurgan Oil Field.
 - **Contract type:** EPCC
 - **Contract Amount:** 2,363,700.00 USD

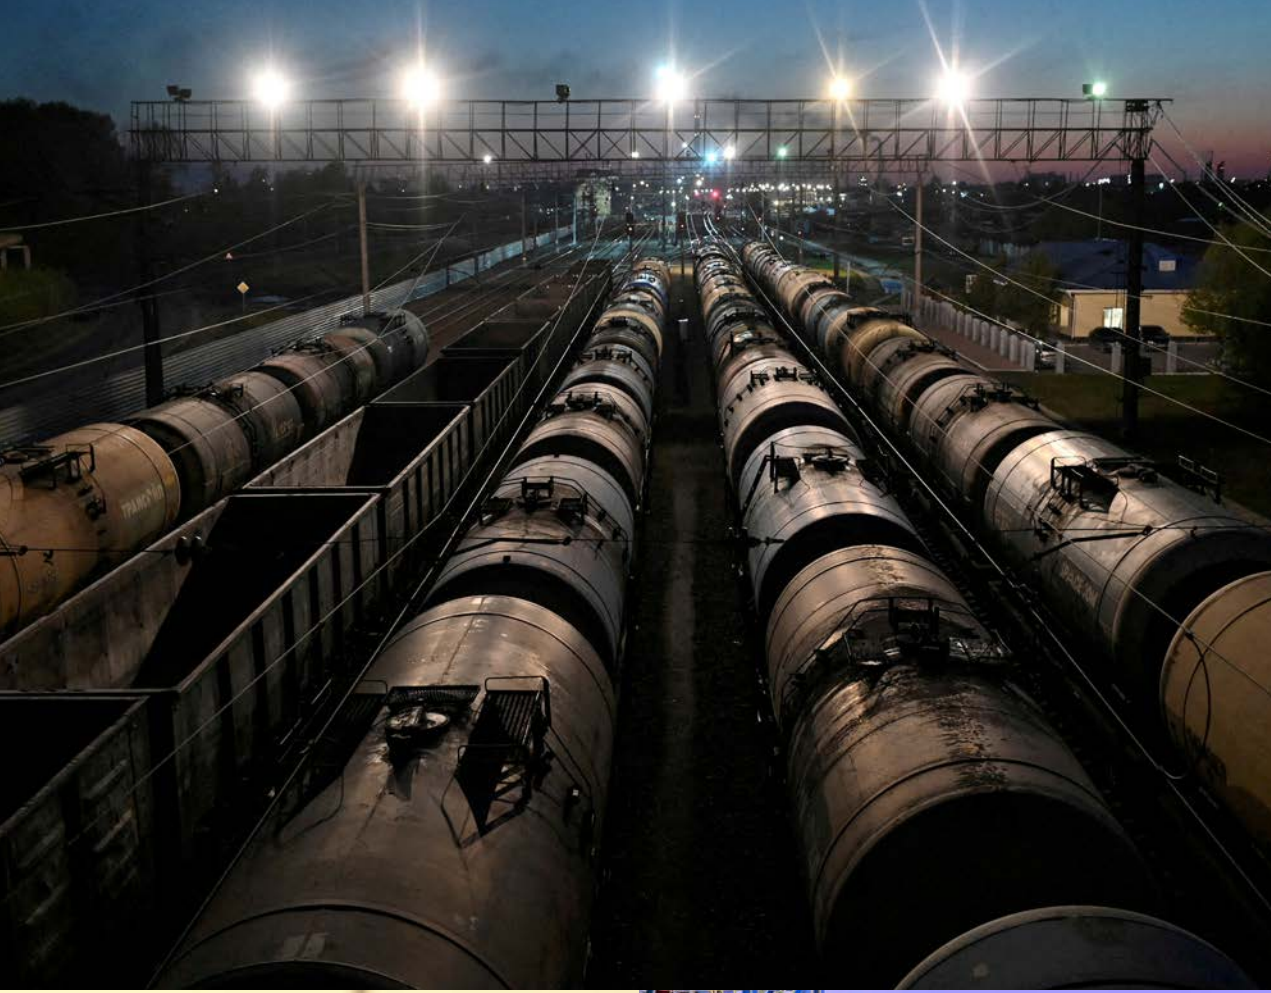

Types of Projects:

C Construction only

PC Procurement & Construction

EPC Engineering Procurement & Construction

MAINTENANCE Maintenance & Refurbishing
